## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. Group I, claim(s) 1, drawn to a precision machine part.
5. Group II, claim(s) 2-8, drawn to a method of making a precision machine part.
6. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1, of which Group I is constituted, is anticipated by Daido Steel JP 9-220658, as set forth in the European Search report provided by applicant. See Daido Steel (column 4, lines 44-50; column 6, line 35 to column 7, lines 22; Figures 1, 2, 5, 8, and 9). In view of the anticipation of the claimed invention of the independent Claim 1 of Group I, there is no corresponding special technical feature among the two groups of claims.
7. A telephone call was made to Mr. Bretschneider on 28 May 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.
8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1775

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
